Python (Programming Language)
Front-End Development

Oluwagbemi Akadiri

Software Development Intern @ Code Institute | Prompt
Engineering, Python
Killarney, County Kerry, Ireland

Summary

As a student intern at Code Institute, I am not only honing my front-end development skills but also delving deeply into the realms of Artificial Intelligence (AI) and Machine Learning (ML). My focus on Prompt Engineering is part of this journey, where I design and optimize interactions with AI systems, enhancing both user experience and my understanding of AI dynamics. With a Bachelor's degree in Computer Science and extensive experience in technical support, I bring a strong foundation in languages like Python, HTML, CSS, and JavaScript. My previous roles at Nextiva and First Bridge, where I tackled cloud-based communication and web hosting challenges, have prepared me to contribute effectively in AI/ML projects. Passionate about the intersection of software development and AI, I am eager to evolve into a role that encompasses full-stack development and AI/ML engineering, aiming to create innovative solutions that address complex real-world problems.

Experience

Code Institute
Student Intern
July 2023 - Present (6 months)
Killarney, County Kerry, Ireland

Nextiva
Technical Support Specialist
February 2021 - May 2023 (2 years 4 months)
Kyiv City, Ukraine

First Bridge
Technical Support Engineer
August 2015 - November 2020 (5 years 4 months)
Kyiv, Kyiv City, Ukraine

Education

Code Institute

Diploma of Education, Computer Software Engineering · (July 2023 - January 2024)

Zaporizhzhya National Technical University

Bachelor's degree, Computer Science · (November 2011 - June 2015)
